MONSTER STRIKE IN SIGHT

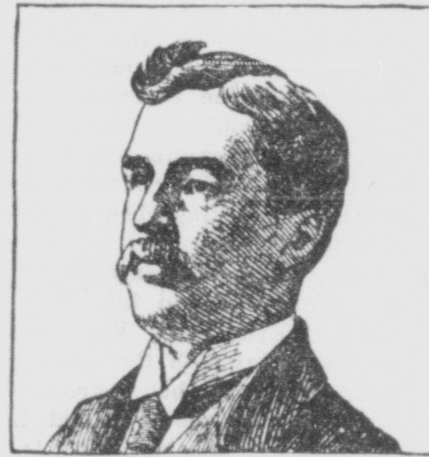

Trainmen Declare They Can Not Go
Back of Returns Obtained in Re-
cent Referendum of Union.

Managers, on the Other Side, Say
They Have Made All Possible
Concessions.

Their Latest Proposition Is to Appeal
to the Government For
Intervention.

Chicago, March 28.—The United States government will be asked to intervene to prevent a strike of the conductors and trainmen on the Western railroads, and if the plans of the general managers do not miscarry, the whole controversy will be submitted to arbitration for settlement. The general managers today gave out a statement in which they declare that they will demand arbitration under the Erdmann act. As a strike of the men would interfere with interstate commerce, the railroad officials believe that they can prevent a strike by asking the government to step in and take command of the situation.

Chicago, March 28.—The 45,000 trainmen of the Western railroads seem nearer a strike today than at any time since the negotiations were begun two months ago, with the general managers for an increase in wages and a shorter work-day. The conference last evening between the representatives of the men and the

P. H. MORRISSEY.

railroad officials lasted four hours, but was a failure so far as bringing about a solution of the trouble. The railroads offered the men increases of 7 per cent to passenger conductors and 10 per cent to the minor employees.

The men had demanded an increase of 12 per cent and a nine-hour work-day, and when the railroad officials declared their offer was the best that could be made, the conference came to an end, as the men by a referendum vote taken last week had decided not to accept anything but what their demands called for.

Immediately after the joint conference broke up, the representatives of the men got together to consider the advisability of calling a strike in order to bring the railroads to terms. Just what decision was reached is not known, as the union men declined to discuss what had taken place at the meeting. They were a unit, however, in declaring a peaceable settlement of the controversy can only be reached by the general managers offering concessions. Another meeting of the union men has been scheduled for this afternoon, and the general belief today is that a strike will be called within the next forty-eight hours unless the railroad officials request another conference to try and settle the matter without resorting to a fight.

P. H. Morrissey, chief of the trainmen's organization, said: "We have been instructed by the men we represent to call a strike unless the offer of the roads was satisfactory to us. The vote by which this attitude was reached carried the strike proposition by a tremendous majority. We are not satisfied and the men are not satisfied. We are not going to ask for any more conferences with the general managers. It is up to those gentlemen now to prevent the men quitting work, and the only way they can do this is to accede to our demands." A. B. Garretson, chief of the conductors, also declared that no further conferences would be held with the general managers.

The railroad officials are not quite so pessimistic over the situation as the representatives of the men. After the failure of the opposing interests to reach a settlement and when the men were declaring that a strike was inevitable, Secretary Slason Thomson of the general managers' association said: "We have not given up hope as yet of a peaceable adjustment of the difficulty. We have conceded a great deal to the men already, and it would seem to be but a matter of a short time until the union officials will see their way clear to accepting the general managers' proposition. I am of opinion that the conference which ended in nothing will be resumed again within the next two days and that some sort of an agreement will be reached."

O'BRIEN DECLINES

Important Change in Personnel of
Thaw Lunacy Commission.

New York, March 28.—After the jury which has been trying Harry K. Thaw for more than two months past was excused until next Monday morning, and the members of the lunacy commission named Tuesday afternoon by Justice Fitzgerald to inquire into Thaw's present state of mind had been sworn in, there came the sudden announcement late yesterday afternoon that former Supreme Court Justice Morgan J. O'Brien, the chairman of the commission, had resigned. In a letter to Justice Fitzgerald, Judge O'Brien stated that upon reflection he was forced, because of the condition of his health and professional engagements previously entered into, to decline to serve as a member of the commission. Justice Fitzgerald immediately made a new order appointing David McClure, a well-known attorney of this city and a member of former Police Commissioner McAdoo's advisory committee of citizens, to fill the vacancy. Mr. McClure met the other members of the commission immediately and was selected as chairman. Later he announced that the first session of the commission will be held this afternoon at 2 o'clock in the courtroom where the trial has been in progress. The commission's inquiry in general will be an open one, although there will be executive sessions from time to time.

Justice Fitzgerald in discharging the jury until next Monday warned them to be careful not to discuss the case in any way or to read any newspaper accounts of what is taking place. It was said that in directing the jury to report next Monday, Justice Fitzgerald did not wholly expect that the commission will be ready to render an opinion by that time. If the commission's inquiry is prolonged, the jury will be called into court every few days in order that it may be kept intact for a resumption of the trial should Thaw be declared sane at the present time.

Insanity Dodge Saved Him.

Ponca, Neb., March 28.—The trial of Frank Brink for the murder of his sweetheart, Bessie Newton, came to a sudden and unexpected termination. Five physicians made an examination as to the mental condition of Brink, and unanimously agreed that he was suffering from melancholic insanity and at the time of the tragedy was unable to distinguish between right and wrong. The jury was instructed by the judge and at once rendered a verdict of not guilty.

The Fall of Honduras.

Washington, March 28.—The state department has received the following telegram from Philip R. Brown, secretary of the American legation at Tegucigalpa, the capital of Honduras: "Tegucigalpa was abandoned early Tuesday, precipitately. It was occupied that night by Nicaraguans and Honduran revolutionary forces. I assumed charge in the interval with the aid of the consuls and preserved order. The Bonillan government no longer exists."

New Oil Companies Get Busy.

Brazil, Ind., March 27.—Ten oil derricks are being built in the Clay county oil field and drilling will begin at all of them in the next two weeks. Developments have proved that the best part of the oil field lies in the central part of Clay county.

To Put Lid on in Morocco.

Paris, March 28.—Six hundred men of the First Foreign Legion and a quantity of stores left Sidi Bel Abbas today for Tlemcen, and another battery of artillery from Oran has been ordered to join the column of occupation.

STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol for Dyspepsia. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weakens, and become diseased.

Kodol For Dyspepsia

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol relieves indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

TALKING IT OVER

The President Discusses Railroad
Situation With His Official
Household.

FORMAL STATEMENT IS DUE

Previous to Cabinet Conference the
President Was Talked to by Illi-
ois Manufacturers' Association.

This Body Urges Upon the Executive
the Need of an Expression of Ad-
ministrative Policy.

Washington, March 28.—An important conference was held at the White House last night at which the railroad situation generally was discussed. Present were Secretary of the Treasury Cortelyou, Secretary of the Interior Garfield, Assistant Secretary of State Bacon, Chairman Knapp and Special Counsel F. B. Kellogg of the interstate commerce commission, and all the members of that commission except Messrs. Prouty and Cockrell, who are out of the city. The conference lasted two and a half hours.

After the conference adjourned it was stated that the meeting was called to outline a scheme to be presented to the next congress for the federal regulation of the railroads of the United States. The plan proposed by Jacob H. Schiff for remedying the railroad situation, which has attracted a great deal of attention, was not taken up at the conference. Mr. Kellogg, who has charge of the Harriman investigation, denied that this question was brought up at the conference.

Previous to this meeting a committee representing the Illinois Manufacturers' association called on the president by appointment and extended to him an urgent invitation to address at Springfield, Ill., at the earliest possible date, a convention of representatives of the manufacturing and mercantile interests of Illinois and the middle West. The conference lasted over an hour, during which there was a free discussion of the railroad situation. At its conclusion the committee gave out the following statement:

The committee submitted to the president that the present railroad financial situation was creating a feeling of timidity and apprehension to such an extent that it threatened an immediate curtailment of banking and business credit which had heretofore been extended to the business interests of the country at a time when the greatest possible demand for the further extension of credit prevailed for the development of the increasing demands of the manufacturing and mercantile industries of the country. It was shown to the president that the manufacturers in the enjoyment of their unprecedented credit had greatly extended their business in the making of purchases necessary to fill orders which require many months for their completion; that the manufacturing and mercantile interests were apprehensive that a feeling of distrust was getting a foothold which would lead to financial curtailment, and such restriction of credit as to threaten dangerous results to the great prosperity that now exists in all avenues of industry. It was urged upon the president that very great good would come to all interests alike if he would signify his willingness to express in a public address, as soon as possible the keynote of his creative and constructive policy. The president was informed by the committee that, though the country's prosperity was very great, it would soon become seriously impaired by the creation of an uneasiness on the part of banks and investors and would lead to such distrust as to prevent the supply of the necessary moneys to satisfy existing wants, as well as to meet the unparalleled development of the manufacturing and transportation interests of the country. The president inquired carefully into the prevailing mercantile conditions and expressed himself as most anxious and determined to do all in his power to protect, preserve and encourage all legitimate business interests of every kind.

At the close of the conference the president thanked the committee for its frank statement of the existing conditions as they appear to the committee and promised that within a few days he would determine whether his present engagements would permit him to accept the committee's invitation.

Going After Train Wreckers.

Philadelphia, March 28.—The Pennsylvania Railroad company has offered rewards aggregating \$5,500 for the arrest and conviction of the person or persons involved in the wrecking of its trains near Pittsburgh. The derailment of the Chicago Limited last week and attempted wrecking of the Keystone Express yesterday led to a conference of officials to discuss the matter, and subsequently the announcement of the rewards was made.

Expert Shows Deficiency.

Evansville, Ind., March 28.—The shortage of former County Recorder Kevekordes, during his five years' term, is \$1,279.85, as shown by a report made to the county commissioners. The bondsmen for Kevekordes will make the shortage good.

STINSON'S EXCUSE DERIDED

Deposed Vice President's Plea That
Drink Led to His Downfall Was
Not Well Received.

By a Large Majority the Union Votes
to Prosecute to the Full Limit
of the Law.

Terre Haute, Ind., March 28.—The convention of district No. 11, United Mine Workers, by a large majority voted to instruct the new administration to prosecute William Stinson, the deposed vice president, and to employ legal counsel to assist the law officers. This vote was taken after two hours of debate, in which those who asked for prosecution bitterly denounced him and derided the excuse of drink for taking certain checks from Treasurer Kennedy's desk New Year's night. Most of the speakers on that side showed animosity and grew angry when a plea for charity was made.

After Stinson's case had been disposed of a resolution was adopted instructing the district officials to call on the Fidelity Insurance company, which furnished the bond for Kennedy to pay his shortage of \$1,633. Not a word was said about prosecuting Kennedy. He was shown to have been taking money constantly for more than a year and making false entries. He, too, pleaded that drink made him irresponsible.

JURY FINDS FOR CUTSHALL

Former Treasurer of Brazil Makes
Successful Technical Plea.

Brazil, Ind., March 28.—A jury in the circuit court returned a verdict of not guilty in the case of D. H. Cutshall, former city treasurer, on the specific charge of embezzling \$300 belonging to the funds of the city. The defense took the ground that the money alleged to have been embezzled belonged to the special Dorsey sewer fund, and was therefore not the property of the city, and won. Following the investigation of Cutshall's books two years ago it was found that he was \$7,000 short in his accounts. The city instituted proceedings against the bondsman to recover, and judgment was returned in full of amount involved; Cutshall, meanwhile, transferred his property to his bondsmen. The shortage was made good. It is now alleged that immunity from prosecution was promised Cutshall by all save one bondsman, who insisted that criminal proceedings follow. The grand jury returned four indictments against Mr. Cutshall, three of which remain to be tried.

Brown County Treasure Trove.

Nashville, Ind., March 28.—Wilbur Walter, near Little Blue, while plowing in a field, unearthed a box which contained \$900 in gold. The money had been concealed by his father many years ago, and Wilbur had looked the farm over in an effort to find the hiding place, and had dug at the roots of numerous trees. The tree, however, under which the box was concealed, had been cut down, and in time the stump rotted and was broken up. In this way the treasure was uncovered. The coins are in tens and twenties. Mr. Walter thinks there is still more money concealed on the farm, and he will continue his search. His father was an economical man, and just before his death he sold forty acres for \$80 an acre, with horses and cattle, the latter bringing \$500. All this money is supposed to be still hidden on the farm.

Exodus of Europeans.

Lalla Marnia, Algeria, March 28.—The French military mission has returned here from Oudja. With it have come all the European residents of Oudja, who report that the town is calm and the people do not suspect the forthcoming occupation. The Moroccan garrison in Oudja consists of only a small escort of the government, and there is very little probability of any resistance to the French column. The Europeans of Oudja left all their personal property locked up in their houses.

Texas Detectives Mystified.

San Antonio, Tex., March 28.—According to the statements of local detectives who have been searching for Horace Marvin, Jr., who disappeared from his home in Dover, Del., March 4, a child answering the description of the missing boy has been seen here by several parties, but when an effort was made to locate him the child had disappeared under rather mysterious circumstances.

A Significant Step.

Los Angeles, Cal., March 28.—Hugh G. Shaug of this city has been dismissed from the railway mail service for his part in the organization of the Brotherhood of Railway Mail Clerks. A. H. Stephens, superintendent of the railway mail service of the Pacific coast system, says: "The action of the department in the Shaug case indicates that the department will not tolerate the brotherhood."

Intervention Demanded.

Budapest, March 28.—The municipal council of this city passed a resolution calling the attention of the government to the danger in which Hungarian residents of Roumania find themselves and asking it to intervene with the Roumanian government with the view of putting an end to the state of anarchy in that country.

Troubles Growing Worse.

Czernowitz, March 28.—The situation in Wallachia is daily growing worse. The number of persons killed daily is growing enormously. Three hundred persons have been killed in an encounter between peasants and the military at Stareskie, and there have been two bloody battles at Mastancetr.

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes broadcast and on each bottle of Dr. Pierce's Favorite Prescription, a list of the ingredients of which his medicines are made of and verified by analysis. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

THURSDAY MARCH 28, 1907

IN a recent number the Scientific American makes the point that there are more calls for capable and well equipped young men than there are such young men to supply the demand. It cites one instance where a railroad sought educated young men to fill places of responsibility, with splendid opportunities for those who made good, but found difficulty in securing the number wanted. It is evident that in every line of business activity there is a demand for young men of stable character and well trained minds and it is up to the boys to meet the demand. They can do it by staying with their school work and preparing themselves for places that require skill and training.

The railroads have not made announcement of their intentions as to Sunday excursions but there is little doubt about what they will conclude to do. They are pretty apt to run them as usual.

Billy Blodgett Writes Up Seymour and Madison Situation.

Billy Blodgett, of Indianapolis News, visited Seymour and Madison this week to investigate the situation relative to the light plants and write 'em up. Most of his information was secured from Russell B. Harrison who has been looking after the interests of bondholders in the legal proceedings involving the light plants at Seymour, Madison and Xenia, Ohio. In what Mr. Blodgett has to say about the local situation he brings out nothing of consequence that the local papers have not already published. He tells the story of the suit brought against the local plant and the appointment of a receiver in language as follows:

"President Brown, of the Western Gas and Investment Company, sued President Brown, of the Seymour Gas and Electric Light Company, and President Brown, of Seymour Gas and Electric Light Company, confessed judgment for the amount. There you are again. But in this instance Col. Russell B. Harrison and his associate counsel, who are representing Evelyn Bird and other minority bondholders, got there first. M. L. Clawson, who is one of Colonel Harrison's law partners at Indianapolis, got to Brownstown, the county seat of Jackson county, about an hour ahead of the attorney representing Kimball, to whom the \$21,000 judgment note was assigned. Mr. Clawson represented the facts in the case to Judge Shea, who refused to appoint the superintendent of the plant receiver as requested by Brown and Kimball, but did appoint the Jackson Trust Company receiver at the request of Mr. Clawson. Evelyn Bird and other minority bondholders. That ends the controversy at Seymour for the present."

Chamberlain's Cough Remedy is Both Agreeable and Effective

Township Commencement

Jackson Township has but two graduates this year in the common schools and separate commencement exercises will be held for each of them. Trustee Philip Pettig wanted to arrange to have a joint commencement with Redding Township but as that township has ten graduates of her own this year, the commencement program was about to be crowded. Miss Minnie Schluter of the Cobb school district, just west of the city, will deliver her graduating oration at her home school on tomorrow morning, which is the closing day of school. The Jaketown school also closes tomorrow and Miss Alice Ruddick of that district will deliver her graduating oration there tomorrow afternoon. Trustee Pettig and others will attend both of these exercises.

The large number of graduates in Redding Township is nothing unusual, for that township is always right at the front when it comes to graduation. They graduate large classes and they make good grades. When they enter the Seymour high school in this city they keep up that good record. Miss Loebline, of Rockford, was the winner of the first honors in the local High school last year and she and Miss Clara Rapp, of Redding township, who was also a close second for the honors in the graduating class here last year, are now students in Depauw college at Greencastle. They are sure to make records there of which their friends here may be proud.

Want the Play Again.

Quite a large number of young people and older people as well, came up from Brownstown Tuesday evening to witness the production of "The County Chairman" at the Seymour Opera House Tuesday night. Several of them drove up and returned home the same evening and a number of others came up on the train. It is said that a number of Brownstown people want the play to be put on there. Nothing definite has been decided yet about giving it any more but the demand for the repetition of the play here at home is so great that it is thought that manager Johnson will be almost compelled to give it again.

About Ball Players.

Seymour baseball enthusiasts are always glad to hear of what the players, who have gone out from here, are doing from year to year. Clegg, who formerly caught on the team here, and Howard Derringer, a fielder of some reputation, are trying for a place on the Indianapolis team of the American Association. While Clegg has been doing some good amateur playing it is hardly thought here that he will be strong enough to hold down a place on the Indianapolis team which is covered by the best baseball players in the country. Derringer could probably field well enough but it is thought with the experience he has had that he would not know the game well enough to secure such an important position. Either of the men would possibly be lacking when it comes to batting ability.

Clifford Derringer, a younger brother of Howard played last year on a team at Lynchburg, Va., and was signed to play with the same people again this year, but Detroit bought his release and then traded him to Springfield, Ohio. Clifford is probably the better player of the two brothers.

Simons, who was one of Seymour's stars a few years ago, played on the team at Peoria, Ill. last year and will probably be heard from in some good team again this year. Both the Derringer boys and Mike Simons were all raised in the Hayden neighborhood. Clegg came from Jeffersonville.

Ruby Goodno and a number of others were fishing on White River a few days ago. Mr. Goodno caught one fine bass but, it is said, refuses to give any dimensions except to state that it was about "that" long. After the fish has been fairly caught once and thrown out on the grounds for keeps he had made a few bounces and got back into the stream. This celebrated fishman felt highly indignant at such a procedure and in order to save his reputation wrded out into the shallow water headed off master fish and recaptured him in his bare hands before he had made his escape into deep water. The fish was about ten inches long dressed.

It is reported that another party who was out Monday caught a nice string of about seventeen or eighteen fish.

Do Not Crowd the Season

The first warm days of spring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown and many shed their flannels. Then a cold wave comes and the people say that grip is epidemic. Colds at this season are much more danger of pneumonia. Take Chamberlain's Cough Remedy, however and you will have nothing to fear. It always cures and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale by C. W. Milhous.

KORN-KINKS

MALTED CORN FLAKES

Kornelia Kinks behind a mask
Attempted quite a fearful task;
Said she—"I'll give dem kids a fright
And see if I can mek dem white,"
But while the color would not go
And leave the kids as white as snow,
She felt quite pleased with what she'd done,
At least—she'd made the color RUN.

"Korn Kinks" will give you a good color and make you strong and healthy. Korn is the most nutritious of all foods, and "Korn Kinks" is simply the flaked kernels of hulled corn, malted. It's delicious, digestible and different. Try it—only 5c., at your grocer's.

Interurban Notes.

The grading work on the Indianapolis and Louisville interurban line, which was taken up again at the south side of the Vogel farm last Friday, has been making rapid progress and it is said that the work has already been completed almost across the farm. About a dozen teams are at work and still more teams will probably be put on soon to push the work as rapidly as possible. Some large tile was being hauled from this city yesterday to be used along the right of way in the vicinity of Farmington. George H. Burtch, of Pittsburg, who has been working farther south along the line, arrived in Seymour a few days ago and has charge of the grading work near this city.

A report reached this office yesterday of another business firm of this city which is to be reorganized and the capital and the business largely increased. Announcement of the same will be made in the near future. This is another evidence of the rapid increase in business in this city.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney Co., Toledo Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. J. CHENEY & Co., Toledo Ohio. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

Escaped Arrest by Flight. Petersburg, Ind., March 28.—Since the passage of the "blind tiger" bill which forced every wholesale liquor house out of Pike county, the authorities have been advised that "blind tigers" were accumulating in the county and that at Ayreshire "bootleggers" were doing a thriving business. The prosecuting attorney, backed by search warrants and accompanied by the marshal of Winslow, raided Ayreshire, and in an old building several gallons of whisky were found and confiscated. The "bootleggers" escaped arrest by flight, but warrants will be issued for them.

Stoutly Denies Charge. Shelbyville, Ind., March 28.—An affidavit was filed against George Anderson, thirty-five years old, unmarried, accusing him of assaulting his niece, Bessie May Anderson, eight years old, and he was arrested and committed to jail. The accused man stoutly denies the charge.

Scottish Rite Masons. Indianapolis, March 28.—Fully 1,000 Scottish Rite Masons are attending the annual convocation of the order at the Temple House. They are from all parts of Indiana, and a few are visitors from consistories in other states.

Took the Profits Off. Shelbyville, Ind., March 28.—Frank Totten of Fairland has paid a fine of \$48 for Frank Rule, who sold in his behalf a bottle of beer to a transient customer. Totten, as alleged, running a "blind tiger" at the time.

Tragedy on Crowded Street. Montgomery, Ala., March 28.—Wm. West, an engineer on the Louisville & Nashville railroad, shot and killed Engineer Frazer late yesterday afternoon and, finding escape impossible, turned the pistol on himself, dying a few moments later. West was accused of stealing a diamond ring from Frazer, and the trial was set for yesterday afternoon in police court. The tragedy occurred on the most crowded retail thoroughfare in the presence of a large crowd of Easter shoppers.

DIED.

CALLAHAN—Thomas Callahan, aged 75 years, died at East Highgate, Vermont, Monday March 25 and was buried at that place on Wednesday. He was a devout member of the Catholic church. His nephew, S. A. Rogers, of this city who left for Vermont Saturday, arrived there on Monday night after the death of his uncle.

Increase in Revenues.

Washington, March 28.—The monthly statement of the collections on internal revenue shows that for the month of February the total receipts were \$20,260,553, an increase as compared with February, 1906, of \$1,917,319.

KIRBY REALTY COMPANY GUARANTEED GOLD BONDS

These Bonds Are in Three Forms

Kirby 5 Per Cent. Gold Coupon Bonds

Issued in denominations of \$10, \$50, \$100, \$500, and \$1,000, and pay the purchaser 5 per cent. per annum payable twice a year by attached coupon. These bonds will be redeemed for the full purchase price at any time.

Kirby Registered Endowment Bonds

Issued in even hundreds, from \$100 up, maturing in 10, 15 or 20 years. \$37.69 invested in a Kirby Endowment bond will pay \$100 in 20 years. \$48.10 will pay \$100 in 15 years, \$61.31 will pay \$100 in 10 years. Full amount paid may be withdrawn after 2 years. This bond affords a splendid medium for securing an income after a period of years. For instance, by paying \$37.69 each year for 20 years, you will then be paid \$100 each year for 20 years.

Kirby Registered Accumulative Bonds

Issued in denominations of \$500 and up, in even hundreds, and are purchased on installment payments. Bonds mature in 10, 15 and 20 years. The rates are as follows for a \$1000 bond.

	10 Year.	15 Year.	20 Year.
Annual	\$75.72	\$44.14	\$28.80
Semi-annual	38.34	22.35	14.58
Quarterly	19.30	11.25	7.34
Monthly	6.60	3.85	2.50

For example, in purchasing a 20 year bond for \$1,000, a payment of \$28.80 is made each year for 20 years, or a total of \$576. The bondholder then receives \$1,000 in cash. Payments may be discontinued at any time, and should the purchaser wish to withdraw his money before the maturity date of the bond, liberal cash surrender values have been provided.

All bonds issued by the Company are its direct contract obligations and are secured by its entire assets. The Company is regarded as the largest corporation of its kind in the Middle West, and operates extensively in Indiana and Ohio. Its charter is limited by law to the buying and selling of real estate, thus making these bonds absolutely the safest investment on the market today. The Company at present has over 12 dollars of assets for every dollar of outstanding bonds.

A Captain In the Ranks

By GEORGE CARY EGGLESTON

mon carrier. Your lawyers will advise you that you cannot refuse freight formally tendered to you for carriage unless you can show an actual inability. In that case you must show that you are doing your best by all shippers alike; that you are treating them with an equal hand. You perfectly well know you are not doing that. You know you have cars in plenty. You know you are deliberately discriminating against this mine and in favor of its rival. I make formal demand on behalf of the company I represent for all cars needed for the shipment of this freight. If they are not forthcoming, as you say they will not be, I give notice that I will dump the coal by the side of your loading side track and leave it there at your risk. Good night." And Duncan shut off the telegraph instrument and devoted himself to the preparation of his letter of demand.

It should be explained that the young man was not "making a bluff"—in the figurative phrase of that time and country—when he telegraphed in this way to the general freight agent. He had his facts well in hand. As soon as Davidson's intimation had come to him to the effect that the railroad officials were "standing in" with the proprietors of the Quentin mine he had telegraphed for Joe Arnold to come to him by a train that would arrive at midnight. Joe Arnold was a detective of rare gifts and, incidentally, a reporter on a Chicago newspaper. Captain Will Hallam often had occasion to employ Joe and thus Duncan had come into acquaintance with the young man's peculiar abilities for finding out things.

To this man, when he came by the midnight train, Duncan said:

"I must know who are the stockholders in the Quentin mine, both those of record and those whose names do not appear on the stock books. If possible I must know also what each stockholder actually paid for his shares. You must hurry. I must have this information by noon tomorrow. You'll need to use money, perhaps. Here's stake for expenses. Come back on the noon train tomorrow."

And Joe Arnold came back, bringing with him quite all the information that Guilford Duncan wanted and considerably more, for he brought with him transcripts of all the correspondence that had passed between the railroad people and the mine proprietors, including a dispatch which the general freight agent had sent a little after midnight that morning to Napoleon Tandy, saying:

Hallam has got that sharp young fellow Duncan at work, and, as you are aware, he knows his business and his rights. I'm afraid he'll make a formal proffer of freight and a demand for cars. I wish you could come here, but of course you can't so long as you wish your stock holdings in that mine down there and your relations with us to be kept secret. Please telegraph any instructions you may wish.

That dispatch, of course, had been sent not from the mines, but from the general freight agent's office in another town. But there were always men in those days who were deeply interested to learn what was going on among the masters of finance, and one of these overcurious ones was a certain telegraph operator. It was his practice to take off the wires whatever dispatches there might be passing between Napper Tandy and the railroad people.

Thus it came about that Joe Arnold brought to Guilford Duncan a mass of accurate and detailed information which enabled him to take the high hand in his telegraphic controversy with the general freight agent when that person, late in the evening, called him up on the wire in answer to his letter, received the night before. This was Duncan armed cap-a-pie for the telegraphic controversy. And thus it came about that during the next six days there were a hundred cars shunted to Redwood side tracks, where they were rapidly loaded with the coal output of the Redwood mine.

CHAPTER XV.
FROM that hour forth the Redwood mine became a paying property and, as Guilford Duncan liked to think, one which was contributing its share to the public benefit and the welfare of the people. But Duncan's work there had only begun. Having solved the problem of shipping coal as fast as the miners could dig it, he gave his attention next to the equally pressing problem of increasing output. In the solution of that a great help unexpectedly came to him.

He was sitting late one night over the books and correspondence when, near midnight, a miner sought speech with him.

He bade the man enter and, without looking up from the papers he was studying, asked him to take a seat. Still without taking his eyes from the papers, he presently asked of the man, who had not accepted the invitation to sit:

"Well, sir, what can I do for you?"
"Nothing," answered the man. "I came to serve you, not to ask service." The voice seemed familiar to Duncan—almost startlingly familiar. He instantly looked up and exclaimed:

"Why, it's Dick Tomble!"

Positive

A soda cracker should be the most nutritious and wholesome of all foods made from wheat—

Comparative

But ordinary soda crackers absorb moisture, collect dust and become stale and soggy long before they reach your table. There is however, one

Superlative

soda cracker—at once so pure, so clean, so crisp and nourishing that it stands alone in its supreme excellence—the name is

BUSINESS COLLEGES ARE FAILURES

In small cities and towns, because:
1. There is not a sufficient population to support a GOOD school.
2. Such schools are usually conducted by persons who are NOT qualified, or who make it a practice to travel about and defraud their patrons.
3. There are few if any opportunities for their graduates to secure employment in such localities.
4. The THOROUGH business colleges are located in the larger cities and are conducted by persons who are qualified.
5. The graduates of business colleges in small cities or towns can not secure employment in large cities when thrown in competition with the THOROUGH graduates of high-class schools, as business men have no time to experiment with incompetents.
Therefore, be wise. Send for the finest 68-page catalogue ever issued by a commercial school, before deciding to throw away your money for a worthless training at some cheap school.
